

About Us

About Us

WHY are our manuals so cost effective? We are a family business with minimum overhead cost. We have over 18 years of experience in the area of OSHA and Workers Compensation. There are thousands of small business owners from coast to coast who do not know a safety manual is required by OSHA. Or they do know and simply have not made time to attempt this task.

Our Safety Manuals were developed to help provide companies  like YOU with an affordable and effective manual for your employees and your clients. You have probably been asked to provide a copy of your company safety manual by a general contractor, state/city municipality, OSHA, to place with a job bid, insurance company etc. Our manuals will definitely satisfy any request you may receive.

Printamannual.com is here to help all businesses no matter their size to deliver to you a cost effective but very detail safety manual. Our manuals do not take into account special unique conditions associated directly with your scope of operation. However, they are very comprehensive and far and above any other basic safety manual you find online. If you are not 100% satisfied with your purchase notify us via email or phone and we will make it right or refund your money 100%.

We are a Satisfaction Guaranteed Company.

FAQ

a

Can I add or change any information in the manual once downloaded?

We encourage you to not delete any information in the individual programs. However, you can always add information to customized the manual to your company's industry and needs.

a

What happens if a client is not happy with the manual once downloaded?

PrintAmanual is 100% customer guarantee. If you find the manual does not meet your needs, then contact our customer service and we will attempt to correct the issue or refund your money 100%.

a

How soon will I receive my manual?

Immediately once you submit your payment. It is easy as 1-2-3. Select your industry – make your payment – download manual.

a

Does OSHA have the ability to fine my company for not having a compliant safety manual or IIPP program?

Yes

a

Why does your company need a safety manual?

OSHA requires every business with one or more employees to

have a written safety manual or Injury, Illness and Prevention Program (IIPP) in place. In the eyes of OSHA if the manual is not written, communicated and implemented effectively then it does not exist.

a

Why should a company select our company manuals?

Our company is a family owned business with over 20 + years of experience in both general and construction industries. No overhead involved which keeps our cost of our manuals affordable at \$79.95 for any size companies.

*Manual will be downloaded in word format which allows customization of adding your company name, safety officer, etc

a

Mission of PrintaManual.com

Our company's mission is to provide our customers with a OSHA compliant safety manual or Injury, Illness and Protection Program (IIPP). We feel safety should be the number one priority for any business owner and manuals should be affordable for every size company.
